Stars and Strikes, a 52,000 square foot family entertainment center located in Cumming, Georgia, opened its doors to the public on July 16, 2005. I wrote the content that was used on their original site. See a sample below.

Twilight Zone (“more information” page)

Did you know that video games can actually improve hand-eye coordination and problem-solving skills? Tell that to your mom—and then hit the Twilight Zone for some intense training! We have the hottest games and attractions on the market, plus some of your tried-and-true old favorites. Don’t miss our:

Motion Simulators

Fly through the air and shoot at your target, experience a rollercoaster without leaving the ground, and much more here in the Twilight Zone. Transport yourself to another place and time like only these cutting-edge games can do – it’s like you’re really there!

Driving Games

Whether it’s a realistic race on an official NASCAR track, or an other-worldly chase through outer space, these games add a little competition to the equation. Compete against your friends, or against a computer – no matter what you choose, you win!

Ticket Redemption Games

Get in and grab tickets out of the midst of a cyclone, or test your luck as you spin to win. Save up your tickets and trade them in for the best prizes in town.

Attractions

How about a little one-on-one basketball between you and a friend? Or air hockey – a classic favorite that everyone loves? There’s something here for everyone, from the most nostalgic to the biggest techie. You’ll love it!

The cost of each game varies, but you don’t need to worry about cumbersome cash or tokens. Load up a Twilight Zone debit card, and play for as long as you want! When you’re done, you can even use your card to store a record of the tickets you scored, so you can save up and redeem them for prizes at a later date.
